The excess money expended in Division No. 2 was made possible by the diversion of money from Divisions No. 1 and No. 3 authorized by the road agents for those divisions, Harry E. Whitcomb and Burton S. Lovering in cooperation with the Selectmen.

Division No. 1 has the smallest mileage; Division No. 2, about 1 mile more than Division No. 1, while Division No. 3, with the largest mileage, has nearly 4 miles more than Division No. 2.

### SUPERINTENDENT'S REPORT

To the School Board and Citizens of Sandown: I herewith submit to you my third annual report as superintendent of schools.

In this report I shall deal briefly with the tables which follow.

Table I. gives the names and training of your teachers. Both Miss Fullerton and Miss Browning came to you with the best of recommendations and are evidently living up to the confidence you placed in them. Your hearty co-operation and help in the solution of individual problems will go a long way to make their task easier and more beneficial to your children.

Table II. contains the school calendar for the present year. It is included to help answer questions

which may arise with regard to vacations and other matters of similar interest.

Table III. shows the name of the one pupil having perfect attendance for the year 1928-'29. The parent's name is given as well because often the incentive for such good attendance rests with the parent. We hope that this list may grow during the present year.

The next two tables deal with the important problem of eighth grade graduation and high school attendance. It is pleasing to me to note that the number of pupils in high school from Sandown is increasing. This increase may result in greater cost for the time being but cost can never measure its ultimate value to Sandown, to the State, and to the Nation.

Table VI. lists the pupils who may enter school next Fall. There may be others who have moved in since the census was taken or who have reached the age named by September 1st, 1930.

The next table gives the results of the physical examination of the children and the follow-up work of the school nurse. A careful reading of this table will show you the highly important duties which she is performing for you. "A sound mind in a sound body" is often heard. You are to be congratulated upon your decision to see this aim accomplished.

The last table deals with a variety of items as revealed by a summary of the registers for each school. There has been an increase in the total enrollment of nine. The present enrollment of about the same number would seem to indicate that this is probably a stable figure—45 pupils. The number of half-days lost per pupil shows an increase. This may be accounted for in sickness largely but an examina-

tion of the registers reveals a number of cases of absence for reasons such as, Away with parents, work at home, rain, snow, and no reason. I am of the opinion that there should be no excuse for absence from school save illness. Let us co-operate to remove these undesirable excuses from your schools. Our tardiness campaign is bearing fruit. Note the very considerable cut in the figures for 1928-'29 as compared with the other years. Our goal, the state average of 1.1 cases per pupil is just around the corner. Table VIII. offers you an opportunity to compare attendance results in the two schools for the three years.

With keen appreciation of your loyal interest and generous support, I respectfully submit this report.

HAROLD C. BOWLEY,

Superintendent of Schools.

Epping, N. H., February 8th, 1930.
